# Profil 18

Profile System for LED Strips

## FEATURES

---

Sleek design

Reasonably priced

Four different diffusers

Base profile in black and aluminum  
anodized available from stock

Individual lengths up to 6m

Usual delivery two working days

Compatible with LED Strips from  
Schnick-Schnack-Systems

# Profil 18

Under the name of Profil 18, Schnick-Schnack-Systems is now offering a new profile system. Aluminum profiles, diffusers and end caps are perfectly harmonized.

The aluminum profiles with a width of 18mm provide enough space for Schnick-Schnack-Systems in-house LED Strips. Four different diffusers, depending on the requirements for different Pixel distances and effects, complete the Rectangular Profile that is available in the standard colours of anodized aluminum and black. The diffusers are made of non-flammable polycarbonate.

Aluminum profile	Article number
LED-Profil 18-15, aluminum black, 2m	804.3201
LED-Profil 18-15, aluminum black, 0,1m-6m	804.3202
LED-Profil 18-15, aluminum anodized, 2m	804.3203
LED-Profil 18-15, aluminum anodized, 0,1m-6m	804.3204

## Fast and flexible thanks to our in-house profile machining

At our in-house profile machining center, we are able to respond quickly to individual customer needs.

### Cut-to-length system with automatic end stop

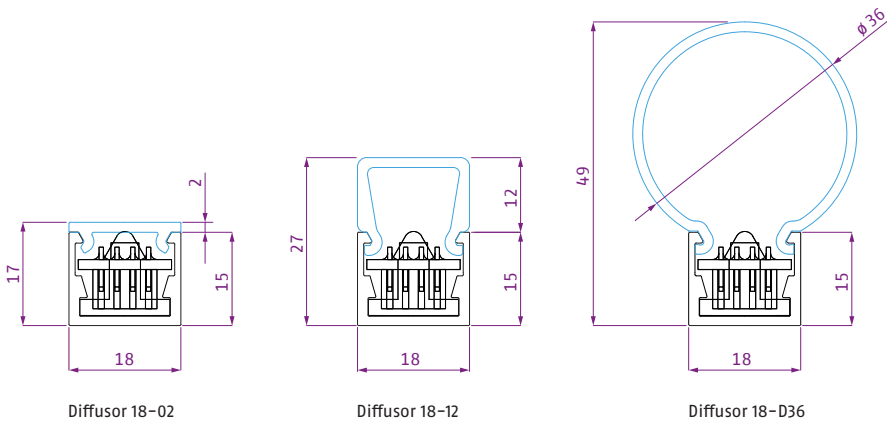

Using our cut-to-length system with automatic end stop, we are able to achieve Individual lengths within a short time. Miter cuts are also possible. Deburring is of course also part of our service. We manufacture even for a quantity of one. The usual delivery time is two working days.

### CNC Milling Machine

With our CNC milling machine, we can work on a large number of profiles and according to different requirements: holes, cutouts, threads but pressed in threaded bolts or pressed in sleeves to fit customer-specific requirements are also possible in a short amount of time. We manufacture even for a quantity of one. The usual delivery time is about one week.

Diffusers	Article number
Diffuser 18-02, satin, 2m, for all Pixel distances	804.3226
Diffuser 18-02, satin, 0,1m-6m, for all Pixel distances	804.3227
Diffuser 18-12, white, 2m, for 12mm Pixel distance or less	804.3228
Diffuser 18-12, white, 0,1m-6m, for 12mm Pixel distance or less	804.3229
Diffuser 18-12, black, 2m, for all Pixel distances	804.3230
Diffuser 18-12, black, 0,1m-6m, for all Pixel distances	804.3231
Diffuser 18-D36, white, 2m, for 25mm Pixel distance or less	804.3232
Diffuser 18-D36, white, 0,1m-6m, for 25mm Pixel distance or less	804.3233

Head end	Article number
Head end 18-02, black, professional 3D print	804.3251
Head end 18-12, black, professional 3D print	804.3261
Head end 18-D36, black, professional 3D print	804.3271
